TrueNet®
Glide Cable Management Solutions

Upper and lower crossover managers with vertical cable managers enable easy, intuitive cable routing.

Figure 1: Connect ports to the same side of the same bay using vertical cable managers with slack managers for handling extra cable lengths.

Figure 2: Vertical cable managers integrate cables and maintain neatness in ladder rack and raised floor applications.

Figure 3: Upper and lower crossover managers enable connection of ports on opposite sides of the bay while maintaining an orderly appearance.

Vertical Mount Managers

Glide 6"   Glide 8"

Specifications

Material: .... Powder coated mild steel frame
.... Plastic spools and edge protectors

Ordering Information

Description	Product No.
Glide 6" Vertical Cable Manager, front only Vertical mounted Glide cable manager, black in colour and 6" (152mm) wide. Eliminates horizontal patch cord minders. The 4 integrated slack managers allow patch cords of any length to be routed neatly whilst still easily accessible. Ideal for use at the start or end of an installation of racks. To equip both sides of a 19" rack, order 2 of these parts.	ADCCMVIBS06F-2
Glide Vertical Cable Manager, front and rear Vertical mounted Glide cable manager, black. Patented rib cage design eliminates horizontal patch cord minders and rear cable management trays. The 4 integrated slack managers allow patch cords of any length to be routed neatly whilst still easily accessible. Ideal for use in between racks as an interconnect. To equip both sides of a 19" rack, order 2 of these parts. **Glide 8" Vertical Cable Manager (200mm)** **Glide10" Vertical Cable Manager (254mm)** **Glide 12" Vertical Cable Manager (300mm)**	 ADCCMS-08 ADCCMS-10 ADCCMS-12
